

From what I understand, wisconsin has one of the best regulations regarding do not call list and my family has greatly appreciated in participating in this due to the fact that we have had more quality time in the evenings as family without having to stop what we were doing as a family, and tend to the phone numerous times during the evening, only to be aggravated by someone who is not on the line right away, but waits for you to pick the phone up and then comes to the line. I find these types of telemarketers to be the most rude. My phone has never been so quiet and my family has never been happier. Our family time is limited to the evenings and we do not want to be disturbed by people we have chosen not to take calls from.

wisconsin has taken this position regarding the do not call list and I feel that it would be unfair to take away the right of the people that VOLUNTARILY put themselves on this list. We put our names on the do not call list for a reason. We put our names there because we are tired of hanging up on a pushy, annoying voice on the other line that is attempting to get me to give them money or sell me something. These people aggravate the hell out of me and every other wisconsin resident that VOLUNTARILY put their name on that list. Please do not make the regulations uniform on a federal basis. Wisconsin residents will thank you!

We take pride in the fact that wisconsin people were intelligent enough to come up with such innovative rules regarding telemarketers calling residents of wisconsin. Please do not undermine our desire to have evening peace in our homes.
